Aluminum Mirror

High reflective Aluminum Mirror is produced through horizontal production line, which is the most advanced production equipment for coating aluminum mirror. High quality clear float and modern mirror equipment combine to produce competitively priced mirrors of exceptionally high quality. It is suitable for further processed and edge working. Our colored mirror is produced by vacuum coating a layer of aluminum on the tinted glass, which can supply you a different and nice decorating effect.

Features:

- Coated on the high quality float glass, exact image.
- Double coated Italian FENZI water-proof paint
- The plating layer is rigid and bonded. The protective layer is impregnable with good erosion-resistant.
- Actual and accurate reflection, high optical quality and durability.
- Easy to be cut, drilled, or beveled, could be made into wall mirror, decorative mirror, safety mirror, furniture mirror etc.

Application:

- For paneling mirror on walls or doors
- Furniture and shelves mirror
- Decorative mirror
- Dressing mirror
