16 mm		40 mm	
18 mm			

Standard Size: 4' x 8'
Also available in 6' x 12', Thickness 12mm & 18mm

MDF

Plain MDF

Medium-Density Fibreboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibres and forming panels by applying high temperature and pressure. MDF is generally denser than plywood. It is made up of separated fibres, but can be used as a building material similar in application to plywood.

Sizes:

4' x 8' (standard)

6' x 12' (also available)
